GLUCOminish™

Blood Sugar Support

Cinnamon Flavor

Reinforce healthy blood sugar levels with GLUCOminish, an innovative solution to support you with your weight loss goals. GLUCOminish helps reduce glucose surges providing steadier energy levels and fewer cravings, keeping you in control of your health.*

PRODUCT DESCRIPTION

GLUCOminish is specifically designed to support healthy blood sugar levels and reduce the effects of elevated insulin caused by unhealthy diets that are high in refined sugars and processed carbs. Our modern diets cause blood sugar spikes and crashes, prompting the pancreas to release more insulin, which over time may lead to reduced insulin sensitivity and, eventually, insulin resistance.

With a healthy diet, exercise, and GLUCOminish, you can better maintain blood sugar levels and get into better shape. With its spiced cinnamon flavor, GLUCOminish can supplement your meals, helping you improve overall health. GLUCOminish may also provide steadier energy and fewer unhealthy cravings, giving you the vitality needed to maintain your goals.*

DIRECTIONS

- Mix one packet into 12-16 oz of water or combine with your favorite Sisel beverage. For best results, consume with a meal.

Store in a cool, dry place. Do not use more than 1 serving at a time.

INGREDIENT FEATURES & BENEFITS

- **Blood Sugar Support:** Reduce the amount of sugar that enters the bloodstream with fig fruit extract containing abscisic acid. Fig fruit helps encourage glycemic and insulin response by prompting an increase in positive glycogen synthesis, or conversion of sugar into energy.*
- **Reduced Sugar Cravings:** Improve glucose uptake and reduce sugar cravings with Ceylon cinnamon. Glucose uptake helps cells absorb glucose and discourages gluconeogenesis in which the body produces glucose from non-carbohydrate sources.*
- **Weight Management:** Support weight management and contribute less sugar to the blood stream with purified acacia hydrolysate, a natural, low-calorie prebiotic sweetener that is slowly absorbed.*
- **Energy:** Encourage the breakdown of complex sugars found in carbohydrates for energy with added hemicellulase enzymes.*

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

BLOOD SUGAR SUPPORT

Supports healthy blood sugar levels after consuming meals that spike blood glucose.

WEIGHT MANAGEMENT

Supports weight loss and weight management weight by burning fat more efficiently.

REDUCED CRAVINGS

Helps control your sugar cravings caused from spikes and crashes in blood glucose.

ENERGY

Promotes steady energy levels with regulated conversion of glucose to energy.
