# MAXClean™ Pet Shampoo

Give your pets a deep, foaming clean and scrub away the grime with MAXClean Pet Shampoo, formulated with sulfate-free ingredients. MAXClean can be used on short- or long-haired animals, including dogs, cats, and horses, and can give them an effective wash while also hydrating the skin.

## PRODUCT DESCRIPTION

MAXClean is a carefully created formula meant to keep your animals, large or small, clean and looking healthy. Lather the rich soap into the fur of small animals like dogs or cats, or give your large animals, like horses, a nice, refreshing scrub. The mild, plant-based cleansers naturally derived from coconut, clean deeply while still being gentle on the skin, avoiding irritation and dryness.

Conditioning hair and fur is easy with MAXClean, which uses proteins from rice and naturally occurring amino acids to strengthen hair and fur, protecting a healthy, shiny coat. Moisturizers from betaine and provitamin B5 help to keep hair and fur soft while also hydrating the underlying skin. Your pets will feel clean and happy with a deep, gentle, MAXClean scrub.

## DIRECTIONS

**For Small Animals (e.g. Dog, Cat):** Wet coat thoroughly with warm water. Massage MAXClean Pet Shampoo into a lather from the back of the ears to tail, being careful to avoid contact with eyes. Rinse thoroughly and towel dry.

**For Large Animals (e.g. Horse, Pony):** Wet coat thoroughly with clear water to remove dirt. Add a liberal amount of MAXClean Pet Shampoo into a bucket of water. Apply solution with a sponge and massage until it becomes a rich lather. Allow the lather to sit for several minutes before rinsing off. Rinse thoroughly and towel dry.

## INGREDIENT FEATURES & BENEFITS

- ▶ **Cleansing Wash:** Create a rich foaming lather with mild, plant-based cleansers like cocamidopropyl betaine, derived from coconut, to clean deeply.
- ▶ **Conditioning & Moisturizing:** Condition with rice protein and naturally occurring amino acids to support hair and fur, protecting their coat and leaving it shiny. Moisturizing agents found in betaine, and panthenol (provitamin B5) help keep skin, hair, and fur soft and healthy.
- ▶ **Gentle Formula:** Minimize the risk of irritation, dryness, or discomfort with natural, plant-based ingredients that are gentle on skin and fur while also being soft on skin. This formula can be used regularly and is ideal for all pets.
- ▶ **For Large or Small Animals:** Rinse away the dirt in fur and hair from small animals, like cats and dogs, or large animals, like horses, to keep your animals of any size feeling fresh and clean.
- ▶ **Free from sulfates, parabens, and phthalates.**
