

SiselRIPT™

Enhanced Muscle Protein Synthesis Support

SiselRIPT™ offers a state-of-the-art way for you to grow, repair and maintain muscle mass. Created with long-term muscle health in mind, **SiselRIPT** is designed to support optimal muscle protein synthesis. With more than \$20 million in research and 25 human trials, this unique, patented formula is clinically proven to provide superior muscular growth, regeneration, and conditioning.

Our muscles rebuild and regrow through a process called muscle protein synthesis. Amino acids are the building blocks for this process, but not all amino acids are equal. Your body easily produces most amino acids as it needs them; but some—called essential amino acids (EAA)—cannot be produced and must be included in our diet in order for our bodies to use them to build protein. Scientists have determined that the efficiency of muscle protein synthesis is dependent on the ratio of EAA involved in the synthesis. If the ratio is too high, then oxidation can occur. If the ratio is too low, then the body cannibalizes the EAA from other muscles or organs.

Branched-chain amino acids (BCAAs) are one of the most important factors in muscle development. They increase the rate of protein synthesis while reducing the rate of protein degradation when you're in a state of rest. Essentially, they improve muscle growth when working out, and they limit how quickly your muscles break down when you're not exercising.

Leucine, isoleucine, and valine are three crucial amino acids for muscle maintenance, growth, and repair, and to help increase natural energy and endurance. In the proper ratio, they provide the means for your body to build mass efficiently without compromising muscle integrity. But while these BCAAs occur and exist naturally, they're rarely consumed in an efficient ratio, let alone an optimized one.

To truly unlock the power of these amino acids, renowned scientist, Dr. Robert Wolfe spent millions of dollars and decades of his life researching The Perfect Ratio. After 25 human trials, the synthesis code was finally cracked. His groundbreaking discovery led to the creation of **SiselRIPT**: a patented, clinically proven formula for maximum muscle health.

Based on these studies, **SiselRIPT** provides a highly efficient ratio of essential amino acids needed for muscle protein synthesis. One 3.6g serving offers more support for muscle growth than larger doses of many other muscle building products. Sisel maximizes **SiselRIPT's** nutritional content, providing enhanced muscle growth support throughout your daily routine, regardless of the amount of exercise you perform.

Work Harder
Run Longer
Be Stronger

FEATURES AND BENEFITS

- Up to 3 times greater anabolic response.*
- Up to 3 times greater net gain of muscle protein.*
- Improved muscle strength.*
- Improved overall muscle quality.*
- Fast acting ingredients.*
- Clinically proven.*
- Supported by 25 human trials.*

DIRECTIONS

Mix 1 sachet (5 grams) in 8 - 16 oz of water 1 - 2 x a day. For better results drink one sachet during post workout.

CAUTION

If you are pregnant, nursing, under 18 years old, taking prescription medication, or have a pre-existing medical condition, consult your healthcare provider before taking this product. Keep out of reach of children. Discontinue use and consult with your health care provider if any adverse reaction occurs. Do not use if sachet is torn or not sealed.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Manufactured for:
Sisel International, LLC
P.O. Box 369, Springville, UT 84663

Sisel International AG
Grundacher 5
6060 Sarnen, Switzerland

SiselRIPT™

Enhanced Muscle Protein Synthesis Support

30 SACHETS • 150g (5g / Sachet)

Supplement Facts/Datos de Suplemento

Serving Size/Tamaño Por Porción: 1 Sachet/Sobre 5g
Serving Per Container/Porciones por Envase: 30

Amount Per Serving/Cantidad Por Porción	% Daily Value/ % Valor Diario
Total Carbohydrate / Carbohidratos Totales	1 g <1%*
Sodium / Sodio	15 mg <1%
Proprietary Blend:	3.79 g **
L-Leucine, L-Lysine HCl, L-Valine, L-Isoleucine, L-Arginine, L-Threonine, L-Phenylalanine, L-Methionine, L-Histidine, L-Tryptophan	
Mezcla Patentada de Amino Ácidos:	
L-Leucina, L-Lisina HCl, L-Valina, L-Isoleucina, L-Arginina, L-Treonina, L-Fenilalanina, L-Metionina, L-Histidina, L-Triptófano	

* Percent Daily Values are based on a 2,000 calorie diet / ** Daily Value not established
* El porcentaje de Valores Diarios se basa en una dieta de 2,000 calorías / ** Valor Diario no establecido

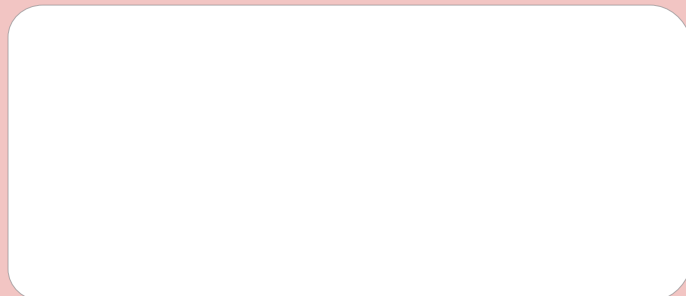

OTHER INGREDIENTS: Citric Acid, Natural Flavors, Malic Acid, Stevia Leaf Extract.

PHENYLKETONURICS: Contains Phenylalanine.

OTROS INGREDIENTES: Ácido Cítrico, Sabores Naturales, Ácido Máfico, Extracto de Hoja de Stevia.

FENILCETONÚRICOS: Contiene Fenilalanina.
