Colostrum

Milk & Honey with Natural Bee Pollen

Experience the ultimate wellness boost with our advanced formula containing lactoferrin, a key protein in colostrum, enriched with bee pollen, vitamin C & D, and Zinc. Unlock enhanced vitality and resilience with each serving, and embrace a healthier, more vibrant you.*

PRODUCT DESCRIPTION

Boasting a remarkable 40% Immunoglobulin G (IgG) concentration, Colostrum Milk & Honey offers significant health benefits backed by scientific research. IgG is a key antibody that plays a critical role in the body's immune response, helping to neutralize pathogens and toxins.

The high IgG content in Colostrum Milk & Honey enhances its ability to support immune function, particularly in promoting gut health, where it helps to maintain the integrity of the intestinal lining and combats harmful bacteria. Colostrum rich in IgG may help bolster the body's natural defenses, promote a healthy gut microbiome, and accelerate recovery, making it an invaluable supplement for overall health and wellbeing.

Lactoferrin, a key protein in bovine colostrum, acts as a mediator linking innate and adaptive immune responses while also supporting iron absorption. It enhances the body's first line of defense by binding to pathogens, inhibiting their growth, and signaling immune cells to respond effectively. Additionally, lactoferrin modulates adaptive immunity by promoting the activation and regulation of T-cells and other immune components. By aiding in the absorption and transport of iron, it further contributes to cellular health and overall resilience, making it a powerful addition for immune support and vitality.

DIRECTIONS

► Empty 1 scoop into 8-12 oz of **cold** water or your favorite Sisel beverage. Stir well and drink.

Store in a cool, dry place.

FEATURES & BENEFITS

► Immunity

Colostrum, combined with Bee Pollen, Vitamins C & D, and Zinc, provides a rich source of essential nutrients that enhance the body's natural defense mechanisms.*

► Gut Health

Colostrum promotes the growth of beneficial digestive bacteria, while supporting the intestinal lining for improved digestive function.*

► Recovery

Colostrum aids in tissue repair and enhancing muscle regeneration, promoting a faster return to peak performance.*
