

BalanceD™

Natural Fiber Dietary Supplement

sisel

F132514-10-01

Sisel set a new standard in the category of fiber by creating **BalanceD™**. Fiber is important to everyone's diet, but there are other basic elements that are often overlooked that are important to a healthy gastrointestinal tract. These ingredients are prebiotics, probiotics, fiber, and Vitamin D. **BalanceD** combines all of these ingredients, creating a synergistic blend that offers incredible digestive support.

Why are these important?

Prebiotic: Chicory Root is a prebiotic that helps to create an ideal environment where probiotics can thrive. Prebiotics are food and fuel for probiotics.

Probiotic: Lactobacillus Rhamnosus, Acidophilus, and Bulgaricus are all infused in **BalanceD**. When these probiotics enter your body, they can flourish because of the prebiotic found in Chicory Root.

Organic Microfiber: Apple, Chicory Root, and Resistant Maltodextrin are the microfibers that can help your digestive system by creating long chain polymers that grab, bond, and assist with the removal of excess waste from the lower intestine.

Vitamin D: **BalanceD** contains 7.5mcg of Vitamin D per serving, which helps your body absorb calcium, supporting bone growth and regeneration.

BalanceD stands out in the world of fiber supplements as a comprehensive, effective, and balanced fiber product.

Keeping a Healthy
Digestive System
Shouldn't be a
Balancing Act

Balance D™

Natural Fiber Dietary Supplement

210 Capsules
