

SiselKAFFÉ™ — Premium Instant Coffee

Superior Tasting, Ultra-Rich, Instant Coffee with Health Benefits

sisel

F133487-10-01

SiselKAFFÉ™ Instant Premium Coffee is a truly unique coffee offering. It features the unrivaled taste of the Panama Boquete coffee bean, low-temperature, infrared-roasted to perfection, resulting in a coffee that is rich in taste and conveniently packaged in sachets.

Our coffee beans are grown in a unique micro-climate on the slopes of an ancient Panamanian volcano. This enriching atmosphere creates sweet coffee beans, which combined with a rich blend of Chaga, Gotu Kola, Bacopa and organic Ganoderma extracts to create what Sisel believes is the healthiest, best tasting coffee on the planet.

Why have the highest rated beans if you don't have the best processing? At Sisel, we take pride in our manufacturing process, which is kept entirely in-house. We roast our beans using special infrared technology. Only a very small percentage of all the coffee beans in the world are prepared with infrared roasters and we're proud to say ours are in that elite group. It results in lower acidity levels and a more evenly flavored coffee, without the burnt or bitter taste some coffee beans produce. All this care ensures that, when you select **SiselKAFFÉ**, you select the best taste and healthier coffee processing.
