Spectra MAXX® provides maximized nutrients to replenish your body from top to bottom. Society is faced with nutritional depletion and escalating toxicity. Agricultural practices result in soil and crops being depleted of nutrients and trace minerals.

Over the years, studies have demonstrated that, compared to plants of only 50 years ago, what we eat today may have up to 75% fewer valuable nutrients. Let's look at a USDA evaluation of the declining nutritional content of Broccoli.

Table 1—Selected Nutrients in Broccoli			
Broccoli—Nutritional Changes 1975-2010* (per 100 grams raw edible portion)			
	1975	2010	Change
Calcium	103 mg	47 mg	Down 54.4%
Iron	1.1 mg	0.73 mg	Down 33.6%
Vitamin A	2500 IU	623 IU	Down 75.1%
Vitamin C	113 mg	89.2 mg	Down 21.1%
Thiamin	0.10mg	0.07 mg	Down 35%
Riboflavin	0.23 mg	0.12 mg	Down 47.8%
Niacin	0.9mg	0.64 mg	Down 28.9%

Spectra MAXX is the ultimate super charged nutritional formula to provide support for all of our cells and vital organs. Our bodies need proper nutritional components to function at their full genetic and biological potential. If we are nutritionally depleted, then our bodies are set up for degenerative and metabolic complications, especially on overall health. Our bodies need the right vitamins and minerals present to fuel essential biological processes. **Spectra MAXX** delivers approximately 40 high powered fruits and vegetables and 74 essential trace minerals. It helps combat environmental stressors that may bombard us daily.

Fulvic acid is one of the key ingredients responsible for the effectiveness of **Spectra MAXX**. It is created when millions of beneficial microbes biodegrade decaying plant matter in the soil. Fulvic acid is biologically very intense, and helps our bodies more effectively absorb nutrients.

Fill in the dietary gaps with **Spectra MAXX** and help support your energy and focus.
