

Aligning the power of nature and the advancements of science, Natrience is clean, customized skin care formulated just for you and your skin's specific needs.

Cell Anew Perfecting Serum

Deeply Hydrates • Reduces Multiple Signs of Aging • Smooths Lines and Wrinkles • Protects Against Blue Light Exposure • Defends Against Environmental Stressors

Powered by natural hero ingredients, this skin-smart serum provides deep hydration to replenish and maintain skin's moisture balance, while reducing the appearance of aging, for a vibrant, youthful look.

The skin-perfecting power of Cell Anew Perfecting Serum, with its concentrated natural actives in an anti-aging focused formula, provides proven skin replenishing and youth enhancing properties. Lines and wrinkles will appear less visible, skin will feel smooth and look even, and be protected against environmental and cellular stressors with a strengthened appearance. When your skin needs an anti-aging superhero, there's no better skin protector and perfecter than Cell Anew.

Ingredient Features and Benefits

- Sharing the same mega-hydrating properties as Hyaluronic Acid, Sodium Hyaluronate delivers immediate and long lasting moisturization to reduce moisture loss, while promoting a noticeably smoother, plumper, younger appearance.
- As a cell-communicating ingredient in the retinoid family, the gentle retinol alternative Hydroxypinacolone Retinoate smooths lines and wrinkles, while evening skin tone and texture, and boosting skin cell turnover.
- Stimulating skin's own defense against the harmful effects of blue light, Scenedesmus Rubescens Extract is a green, freshwater microalgae extract that reduces the appearance of hyperpigmentation and redness, protects the skin's barrier, and helps support collagen synthesis.
- A Xylitol-derived complex of water-binding plant sugars helps prevent water loss from the skin and provides reinforcement to skin structure for a softer, smoother feel.
- Similar to skin's natural oil, Olive Squalane is a plant-derived, environmentally friendly emollient that provides nourishing hydration for a soft and glowing complexion and radiant finish.
- Bacillus Ferment sourced from an ancient underwater cave in Mallorca's Island is a prebiotic that supports a balanced microbiome by protecting skin cells from oxidative stress.
- Natural Green Team fragrance provides a clean, fresh scent.

Ingredients

Water (Aqua), Butylene Glycol, Diisopropyl Adipate, Propanediol, Bacillus Ferment, Leuconostoc/Radish Root Ferment Filtrate, Xylitylglucoside, Sodium Hyaluronate, Hydroxypinacolone Retinoate, Scenedesmus Rubescens Extract, Ethylhexyl Olivat, Squalane, Xylitol, Anhydroxylitol, Tocopherol, Tapioca Starch, Sodium Stearoyl Glutamate, Xanthan Gum, Lecithin, Sclerotium Gum, Pullulan, 1,2-Hexanediol, Pentylene Glycol, Fragrance (Natural).

1 fl. oz. (30 ml)

Directions

Apply morning and night to clean, dry skin. Massage gently over face and neck until completely absorbed. For those with sensitive skin, test on a small area before applying to entire face. Avoid close contact with eye area, eyelids, lips, and upper lip area.

Inspired by Nature, Refined by Science, Made Safe by Sisel, Loved by Skin

Natrience formulas are created on a foundation of natural ingredients that have been refined by technology and cutting-edge advancements in skin science into their most active and bioavailable components. Every ingredient meets our stringent Sisel Safe® standards with the highest levels of safety, purity, and integrity. These perfected ingredients are thoughtfully formulated into our Natrience skin care line where they are loved by you and your skin for their visible anti-aging benefits and for the health, vitality, and wellbeing of your skin.

FAQ

Q. How does Cell Anew Perfecting Serum support skin health?

A. Effective hydration and a strong barrier, as well as smooth and strong looking and feeling skin, are all part of what gives your skin a healthy, youthful glow. Cell Anew Perfecting Serum provides intense hydration with Sodium Hyaluronate and supports defends against multiple signs of skin aging with Hydroxypinacolone Retinoate. These two powerhouse ingredients significantly support skin's health and vitality.

Q. What are the key benefits of Cell Anew Perfecting Serum?

A. The aging process causes visible changes on the skin's surface as well as changes we can't see below the surface. Cell Anew Perfecting Serum supports multiple skin surface layers. It promotes a noticeably smoother, plumper appearance through intense hydration. Lines and wrinkles that become more prominent with age are visibly reduced, rough skin texture is improved, and skin is protected from the harmful effects of blue light and environmental exposure.

Q. What is a serum, and why is Cell Anew Perfecting Serum important in my skin care routine?

A. Serums are highly concentrated formulations that are designed to absorb quickly into the skin, delivering an intensive dose of ingredients. Serums are light, easily absorbed liquids that are added to your skin care regimen during your treatment step, after cleansing and before moisturizing.

Q. What is the difference between a serum and a booster?

A. A serum is a blend of active ingredients designed for skin health. Serums like Cell Anew address common skin complaints and tackle multiple skin concerns at once with comprehensive anti-aging benefits. A booster provides a targeted treatment with focus on the unique capabilities of high-concentration hero ingredients.

Q. What is the difference between Sodium Hyaluronate and Hyaluronic Acid?

A. Hyaluronic Acid is a naturally occurring component found throughout the body's connective tissue that gives your skin structure and is responsible for a plump, hydrated look. With its optimized ratio of seven unique molecular weights to penetrate various skin surface layers, the sister to Hyaluronic Acid – Sodium Hyaluronate – absorbs into your skin even easier than Hyaluronic Acid and is designed to provide maximum moisturization and help stimulate your skin to produce more of this vital element for deeper moisturization and younger looking skin. Clinical studies performed on Sodium Hyaluronate demonstrate that it reduces moisture loss within the skin by 32% in 24 hours.

Q What is the difference between Hydroxypinacolone Retinoate and Retinol?

A. Hydroxypinacolone Retinoate is a powerful retinoid, or Vitamin A derivative. It's much gentler than traditional retinol that can cause redness and irritation but provides the same potent anti-aging and blemish-reducing benefits. It visibly reduces lines and wrinkles, evens the appearance of skin tone and texture, boosts the turnover rate of skin cells, and strengthens skin's barrier. Clinical studies performed on Hydroxypinacolone Retinoate demonstrate that it smooths lines and wrinkles by 14% within 28 days.

Q. What is blue light and what are its negative effects on my skin?

A. Also known as high-energy light, blue light comes from computer and phone screens, and other digital devices, as well as the main source – the sun. Blue light can stimulate the production of free radicals in the skin which can accelerate the appearance of aging, including breaking down collagen and creating hyperpigmentation.

Q. How does Cell Anew Perfecting Serum protect against damage from blue light?

A. Cell Anew Perfecting Serum is formulated with the microalgae ingredient, Scendesmus Rubescens Extract. Living in fresh-water lakes, this unique organism has developed self-defense capabilities against a harsh environment. Formulated into Cell Anew, it helps stimulate skin's own defense against the damaging visible effects of blue light exposure.

Q. When should I use Cell Anew Perfecting Serum?

A. Use Cell Anew morning and night, after cleansing, before or combined with Natrience boosters, and before moisturizing.

Q. How do I choose which serum or booster to add to my Natrience routine, and when to add them?

A. Consider adding one serum or booster at a time and allowing a two-week period for your skin to adjust before adding another. A good starting point is Cell Anew Perfecting Serum, formulated to support healthy skin and reduce multiple signs of aging. Then consider adding a booster that matches your main skin concerns: Go Bright to brighten skin and reduce the appearance of dark spots or discoloration; or Go Clear to reduce the appearance of blemishes, slough off dead surface skin and clarify skin tone; or Go Firm to plump skin, support and protect your skin's collagen and elastic network, and provide a firm, lifted appearance.
