

Aligning the power of nature and the advancements of science, Natrience is clean, customized skin care formulated just for you and your skin's specific needs.

Hydra Rich Repair Cream

Supplies Intense Hydration • Replenishes Skin's Barrier • Protects Against Blue Light Exposure • Defends Against Environmental Stressors

Powered by natural ingredients that provide luxurious, rich hydration, while protecting skin from the visible effects of blue light and daily exposure to environmental stressors.

The intense moisturizing properties of Hydra Rich Repair Cream infuse skin with rich hydration and skin-resilient support. Multi-benefit anti-aging ingredients help protect against cellular damage and help restore dry or damaged skin. With active ingredients that help defend against and counteract the signs of aging caused by harmful high-energy blue light and help skin adapt to environmental conditions, Hydra Rich supports essential protective and reparative properties to maintain a nourished, radiant appearance.

Ingredient Features and Benefits

- The rich hydrating properties of Shea Butter and Jojoba Seed Oil help prevent evaporation of the skin's natural moisture and increase hydration in skin's upper layers, as their emollient properties soften, smooth, and seal in moisture.
- Natural marine-derived Beta Glucan helps decrease the appearance of lines and wrinkles while simultaneously offering vital moisture and supporting skin's natural immune system and repair properties.
- Ceramides are human-skin-identical lipids that support the renewal of skin's natural protective barrier and protect against moisture loss.
- Cryptomeria Japonica Bud Extract is rich in energetic compounds that help protect skin's moisture content within surface layers and support skin's barrier function.
- Calendula Officinalis Flower Extract, commonly called Marigold, helps protect against the appearance of aging caused by everyday exposure to high-energy blue light from digital and electronic devices, to help minimize the look of pigmentation and feel of rough skin, and encourage skin gloss and elasticity.
- Sourced from the deserts and salt lakes of Egypt, Ectoin is a natural amino acid packed with cellular protection from environmental stressors to visibly improve the appearance of damaged, aged, stressed, or irritated skin.
- Niacinamide supports a variety of anti-aging conditions: it assists skin's natural repair process from UV damage, supports natural collagen synthesis, helps decrease the appearance of lines and wrinkles, and creates resilient skin with a flawless complexion.
- Wild harvested from the highlands of Madagascar, skin soothing extracts from Centella Asiatica, also known as Cica, can help accelerate skin's natural repair process, redensify skin's appearance, and reduce the appearance of skin damage from the aging process.
- Sourced from Finland and packed with beneficial vitamins and minerals, Chaga and Shitake are adaptogenic mushrooms that help counteract the adverse effects of environmental stressors, supporting skin's healthy, youthful appearance.
- Natural Green Tea fragrance provides a calming, soothing scent

Inspired by Nature, Refined by Science, Made Safe by Sisel, Loved by Skin

Natrience formulas are created on a foundation of natural ingredients that have been refined by technology and cutting-edge advancements in skin science into their most active and bioavailable components. Every ingredient meets our stringent Sisel Safe® standards with the highest levels of safety, purity, and integrity. These perfected ingredients are thoughtfully formulated into our Natrience skin care line where they are loved by you and your skin for their visible anti-aging benefits and for the health, vitality, and wellbeing of your skin.

50 ml 1.7 fl. oz.

Directions

Apply to clean skin on face and neck, after serum or boosters. Use daily, morning or night.

FAQ

Q. How does Hydra Rich Repair Cream support skin health?

A. Whether you have dry, normal, combination, or oily skin, moisturizing is essential for maintaining healthy skin. Hydrated skin is happy skin. Since your skin thrives when it's properly hydrated, applying moisturizer daily, both in the morning and before bedtime, is key for healthy skin. During the day, Hydra Rich helps protect skin from the visible aging effects of blue light and environmental exposure. At night, Hydra Rich supports skin resiliency and its natural nighttime repair processes, as your skin naturally rejuvenates while you sleep.

Q. What are the key benefits of Hydra Rich Repair Cream?

A. Hydra Rich Repair Cream supplies intense hydration and is formulated to help replenish skin's barrier, protect against the visible effects of blue light exposure, and support your skin's defense against environmental stressors.

Q. What are ceramides and why are they formulated into Hydra Rich Repair Cream?

A. Ceramides are lipids that are found naturally in your skin. They make up about 50% of the outer layer of your skin, called the epidermis. With age, your skin can't replenish its natural ceramides as quickly as it did when you were young. The active ceramides in Hydra Rich Repair Cream are human-skin-identical lipids, meaning they are the same structure as the ceramides in your skin. Hydra Rich's ceramides support and strengthen skin's natural barrier, helping protect against environmental damage and prevent moisture loss. Ceramides help boost skin hydration by locking in moisture, supporting sensitive skin and combating dryness.

Q. What is an adaptogen, and why are the adaptogenic ingredients in Hydra Rich Repair Cream vital for your skin?

A. Adaptogens are natural organisms living in extreme habitats and have adapted to survive in these harsh conditions. With their adaptogenic properties, the amino acid Ectoin and the mushrooms Chaga (Inonotus Obliquus) and Shiitake (Lentinus Edodes) in Hydra Rich Repair Cream can help defend your skin from environmental aggressors and support skin's natural repair processes.

Q. What is the difference between Hydra Rich Repair Cream and Hydra Light Repair Lotion?

A. While both Hydra Rich and Hydra Light share the same results-oriented active ingredients, each formula includes unique moisturizing ingredients that produce personalized hydration properties: luxuriously rich hydration with Shea Butter and Jojoba Seed Oil, and light and weightless moisture for Hydra Light with Grape Seed Oil and Safflower Seed Oil.

Q. How do I use Hydra Rich Repair Cream in my skin care routine?

A. Use Hydra Rich Repair Cream morning and night for normal to dry skin. Use Hydra Light Repair Lotion morning and night for combination to oily skin. Or use Hydra Light in the morning for lighter hydration and Hydra Rich at night for richer hydration.
