# SiselSilver™ Serum Micronized Colloidal Silver

Support skin health and hydration with SiselSilver Serum. This advanced serum combines  $\text{Ag}_4\text{O}_4$  micronized colloidal silver technology with hyaluronic acid to support skin resilience, hydration, and repair. This preservative-free formula provides effective healing defense that is ideal for calming irritated skin and maintaining skin vitality.

## PRODUCT DESCRIPTION

SiselSilver Serum is a topical silver formula designed to help keep skin looking and feeling healthy. This advanced serum supports natural resilience in skin and aids the repair process with a 25 ppm concentration of micronized colloidal silver in reverse osmosis (RO) water. It also supports skin with hyaluronic acid—a compound naturally found in the body that improves moisture retention and provides essential hydration for supple skin.

Traditionally, silver was used to treat topical wounds, injuries, and burns, and has long been valued for its antibacterial, antiseptic, and antimicrobial properties. SiselSilver Serum is formulated with an advanced  $\text{Ag}_4\text{O}_4$  silver technology which features a micronized colloidal silver core surrounded by millions of silver oxide molecules. This unique structure promotes continuous particle function to maximize bioavailability for better results.

## DIRECTIONS

Dispense several drops onto fingertips and apply to skin as needed.

## INGREDIENT FEATURES & BENEFITS

- **Skin Support:** Designed to be effective at supporting, maintaining, and defending the skin. Includes hyaluronic acid for moisturizing benefits.
- **Advanced Technology:**  $\text{Ag}_4\text{O}_4$  technology keeps silver active and functional for consistent performance and high bioavailability.
- **Purity:** Made with reverse osmosis (RO) water, and preservative-free for utmost purity, this serum includes all natural ingredients for a Sisel Safe® formula.
- **Clinically Supported:**  $\text{Ag}_4\text{O}_4$  technology is backed by independent human clinical and toxicity studies to ensure confidence in performance and safety.
- **Tested:** Per USP <51> standard testing, SiselSilver Serum has been evaluated and shown to reduce the levels of common microorganisms and fungi including *Staphylococcus aureus*, *Escherichia coli*, *Pseudomonas aeruginosa*, *Candida albicans*, *Aspergillus brasiliensis*, and *MRSA*

### SKIN SUPPORT & REPAIR

Help strengthen skin resilience and healing.

### DEEP HYDRATION

Encourages moisture retention for healthy skin.

### ADVANCED TECHNOLOGY

Enhances traditional silver function.

### PURE & PROVEN

Preservative-free and clinically supported.

## INGREDIENTS

Net Weight: 30 mL (1 fl oz)

Colloidal Silver (Micronized), Butylene Glycol, Xanthan Gum, Hydrolyzed Hyaluronic Acid.

## CAUTION

For external use only. Avoid contact with eyes. Keep out of reach of children. Do not use if tamper-evident seal is broken. Discontinue use if there is an adverse reaction.
