# SupraShine® Toothpaste

Polish your smile with SupraShine® Toothpaste, a fluoride-free formula designed to protect your teeth and support overall oral health. Gentle ingredients clean thoroughly without damaging enamel and help protect the soft tissues of the mouth. With a refreshing peppermint flavor, SupraShine leaves your mouth feeling clean and cool after every brush.

## PRODUCT DESCRIPTION

SupraShine uses ingredients carefully chosen to polish teeth, freshen breath, and support lasting oral health in a gentle, fluoride-free formula. Hydrated silica helps prevent surface stains without damaging enamel or irritating soft tissues. To care for sensitive tissues, SupraShine includes Camellia sinensis leaf powder and hydrolyzed casein—a milk-derived protein known for its protective qualities.

SupraShine helps neutralize odor-causing bacteria and prevent damage from bacteria by using zinc citrate, stabilized chlorine dioxide, and xylitol. Xylitol, a natural sweetener found in plants, helps protect your teeth from bacterial growth, provides a fresh flavor, and enhances the cooling effect of peppermint extracts. Free from fluoride, SupraShine is a gentle and effective daily toothpaste that everyone can enjoy.

## INGREDIENT FEATURES & BENEFITS

- ▶ **Polishing:** Hydrated silica gently lifts surface stains and debris to promote a naturally whiter smile, all without abrasives that wear down enamel.
- ▶ **Breath Support:** Zinc citrate and stabilized chlorine dioxide reduce bacteria that contribute to bad breath.
- ▶ **Soft Tissue Support:** Hydrolyzed casein and Camellia sinensis leaf powder help soothe soft tissue in the mouth.
- ▶ **Plaque Control:** Xylitol helps limit plaque buildup by reducing harmful bacteria.
- ▶ **Sisel Safe®:** Fluoride-free and made without harsh chemicals, SupraShine is a safe, gentle option for effective oral care.

## DIRECTIONS

- ▶ Apply a pea-sized amount of SupraShine to your toothbrush and brush thoroughly. Do not swallow toothpaste.

Brush your teeth daily after meals.

Safe for children to use but may require adult supervision.

#### TOOTH POLISHING

Gently lifts surface stains and debris for a naturally whiter smile.

#### FRESH BREATH

Reduces bacteria that contribute to bad breath.

#### PLAQUE CONTROL

Limits plaque buildup and reduces harmful bacteria.
